

Brighton Park Landscape Refresh

Long-term planning deck

About the Project

- Brighton Park is in USDA Zone 8B (parts of our zipcode are in 8A), with significant microclimates due to areas with full sun, full shade, etc
- Goal is to add variety to our landscape, but still have continuity
- Add drought-tolerant plants

Goals

- Recommend hardy plants that thrive in our Zone
- Slowly exchange plants that require extensive pruning with plants that do not require shaping and rarely need to be pruned
- Add texture and color to our landscape
- Monitor trees with extensive roots
- Exchange trees that drop material on cars and surfaces

Suggested Flowering Perennials

- Coneflowers
- Black-eyed Susan
- Yarrow
- Daylilies
- Lantana
- Coreopsis
- Purple Heart Plant
- Hardy Ice Plant
- Hydrangeas
- Mums
- Oriental lilies

Coneflowers

Black-eyed Susan

Yarrow

Daylillies

Lantana

Coreopsis

Purple Heart Plant

Hardy Ice Plant

Hydrangeas

Mums

Oriental Lilies

Suggested Shrubs

- Year around colors
- Less trimming and pruning
- Loropetalum
- Abelia
- Dwarf Nandina
- Indian Hawthorne
- Japanese Aralia
- Azaleas

Loropetalum

Abelia

Dwarf Nandina

Indian Hawthorns

Azaleas

Japanese Aralia

Suggested Continuously Flowering

- Year around colors
- Less trimming and pruning
- Sedum
- Heuchera
- Ajuga
- Mexican Petunias

Sedum

Heuchera

Ajuga

Mexican Petunias

Suggested Shade Plants

- Sensitive Fern
- Hostas

Sensitive Fern

Hostas

Suggested Greenery

- Year around green
- Less trimming and pruning
- Windmill Palm
- Needle Palm
- Sabor Minor

Windmill Palm

Needle Palm

Sabal Minor
